simplifying IT: How will you grow?

Choose two workshops to attend which fit your interest and skill level.

Check in: (8:30-8:50am): Greenlease Library, Main Lobby

I. **iPad 101 Basics, Integration for Leaders:** (9:00-9:50) Tech Orchard

To provide an introduction to understanding how the iPad functions and best practices.

Purpose: This will include a look at the physical features, prolonging battery life and basic care of the device. Ways that are available to navigating on the iPad through the use of Multiple Pages/The Dock, and searching on the iPad.

II. **iPad 102 Advanced Use, Integration for Leaders** (10:00-10:50) Tech Orchard

To provide basic techniques that to troubleshoot the device. We will also share some time saving tips & tricks on the use of the virtual keyboard. An in-depth discussion of Notability and Evernote, file share and organization within Dropbox and Box.

Purpose: To be able to troubleshoot the device and get it up and running again. Splitting the Keyboard or using the Landscape Mode to fit the needs of each individual user. Simple tricks like Tap, Hold & Drag to Move Cursor, and more. To evaluate Notability, Evernote, Dropbox, and Box within the classroom / work environment.

III. **The Flipped Classroom:** (this session will occur twice: 9:00-9:50, 10:00-10:50)

Dr. Mandi Sonnenberg

To provide basic and advanced pedagogical strategies to enhance student learning.

Purpose: In this workshop, teachers will develop the skills to flip their own classrooms. The Flipped Classroom isn't just about bringing new technologies into classrooms - it's about using that technology to transform the way students learn.

Networking and Professional Playground for everyone from 11:00-noon.

Refreshments and light snacks will be served in the Greenlease Library

Helzberg School of Management: Networking Time

Department of Education: Professional Playground

Graduate Students from the Department of Education will be presenting informally about a workshop they attended in San Antonio at the International Society of Teacher Education (www.iste.org)

Thursday, July 11th:

Melissa Ingle: "Trends in Game-Based Learning"

Shirl Nichols: "We Like to Move It! Activities with Mobile Devices"

Thursday, August 1st :

Chris Casali: "Technology Tools: 2.0 for 21st Century Learning"
